Mr.Venkatesha Murthy, founder of **VANS CHEMISTRY**,has a unique combination of professional qualification, technical expertise and commercial understanding about Precious Metals & EEE-Resource Industry.he is a recognized personality in the EEE-Resource market globally.

The Founder has over 25 years of experience in the area of,

- EEE-Resource Management
- Precious and Strategic Metals Recovery & Refining,
- Precious Metals plating
- Extraction Metallurgy
- Environmental Protection

Design & Set-up of integrated EEE-Resource facilities includes Analytical Lab, EEE-Resource Separation facilities, Metals Refining, Close Loop Pollution Control Systems, ISO standards, Raw Material sourcing, Marketing, Sales, EEE-Resource guidelines, International regulations etc.

E-waste market is increasing rapidly and there is a need for entrepreneurs to identify the business opportunities and make a change by setting up formal recycling plants.

To get started and to sustain on the entrepreneurial campus, one needs a lot of knowledge, experience and skills. Being able to identify the right technologies and implement the global best practices is also a major requirement in the formal run.
