

## UNICEF DAY OBSERVATION AT GOVT UP SCHOOL, MIJAR

**Date: 19/12/2023 | Time: 10:30 AM**

**Introduction:** The Department of Forensic Medicine and Toxicology organized a remarkable UNICEF Day observation at Govt UP School, Mijar, on December 19, 2023. The event aimed to raise awareness and promote the rights and well-being of children worldwide.

The highlight of the event was the engaging participation of the second-year BHMS students, who orchestrated an array of programs. They conducted a thought-provoking skit, insightful short presentations, and captivating activities tailored for the school students, fostering an interactive and educational environment.

### **Program Highlights:**

*Skit Performance:* The students delivered a compelling skit focusing on children's rights, emphasizing the importance of education, health, and protection.

*Short Presentations:* Informative presentations were conducted on crucial UNICEF initiatives, shedding light on the following topics ;

- Introduction and Importance of UNICEF
- Children, Food, and Nutrition
- Water, Sanitation, and Hygiene
- Child Protection
- Life Skills
- Preventing Violence Against Children

This visit was a chance to learn about UNICEF and children's rights. We had talks, a play, and students could ask questions. Dr. Manu Bhat, Dr. Indu O S, and Dr. Jessan Joshua imparted their knowledge and support for making it happen and the students, made it lively and engaging. child health, education, and protection programs globally.

Through these efforts, the Department of Forensic Medicine and Toxicology successfully conveyed the essence of UNICEF's mission, emphasizing the importance of advocating for and safeguarding the rights of children globally.

*Interactive Activities:* Engaging activities were organized to involve the school students, promoting learning and awareness about children's rights and UNICEF's vital role. Prizes were distributed to the students of quiz competition based on the short presentations.

**Impact and Response:** The event received an overwhelmingly positive response from the school students, who actively participated in the activities and enthusiastically engaged with the informative sessions. The interactive nature of the event facilitated a deeper understanding and appreciation for the work undertaken by UNICEF.

**Conclusion:** The Department of Forensic Medicine and Toxicology's initiative in organizing the UNICEF Day observation at Government UP School, Mijar, proved to be a resounding success. The participation of Second BHMS students and their dedication in presenting informative and entertaining programs contributed significantly to spreading awareness about children's rights and UNICEF's commendable efforts. This event served as a meaningful platform to instil the values of compassion, education, and protection among the future generation, aligning with UNICEF's noble mission to ensure the well-being of every child worldwide.

The event concluded on a high note, leaving an indelible impression on both the students and the faculty involved, serving as a testament to the commitment towards fostering a better future for our children.

The principal of the school extended a heartfelt vote of thanks, acknowledging the efforts put forth by all involved in making the event a success
